

#### Foiled Colour Options

\* Nearest match. RAL numbers are given in good faith but are for reference only. We take no responsibility for other materials not matching our finish.

#### **Glazing Options**

### Georgian Bar Options

Georgian bars are available in White, Agate, Chartwell Green, Slate, Anthracite, Black, Irish Oak, Light Oak and Rosewood foil finishes. All have White on the reverse except for Anthracite, Black, Irish Oak, Light Oak and Rosewood which are on both sides.

#### Resin Bevel (BP) No backing glass option available

Each design is carefully sealed between twopanesof glassforease of cleaning, This glass will not shatter but will hold together evenifbroken. Each resin is obscure and the design will occasionally produceminor imperfections that are generallyregarded as acceptable. Theresinis glazed on the inside piece of glass facing outwards.

#### Bevelled Glass (DB)

Traditionalhandcrafted and bonded to the glass with an optically clear resin, then overlaid with lead. These timeless designs will complement that period home

#### Stained Units (CD) (CL)

Combining traditional lead work with coloured film, these designs replicate that stained glass appearance. All stained units are individually hand made and the coloured film may at times, vary slightly from the computer generated brochure.

#### Sandblasted / Etched Glass (TD) (DB)

This handcrafted glass isnow producedusing modern technology and is designed to give a traditional appearance. For a more dramatic effect, this is often combined with striking glass bevels. Though generally obscure, it does leave various areas clear.

#### Silver Grille (DB)

Our SilverGrille options feature attractive traditional motifs that are created using a highly polished chrome framework that is sealed within the double glazed units. Each Silver Grille design is available with a choice of backing glass.

Back Door with Square Lead Glass

Back Door in Slate with Diamond Lead Glass

Back Door Solid

### **Amatis Collection**

Stylishinverse moulding is the latest feature to be introduced to the PVC-U panel door and has proved to be popular with home owners, which is why we have extended our range to provide you with even more styles to choose from.

On most PVC-U doors, the mouldings are raised from the door. However, with the Amatis inverse collection, the mouldings recess into the door. This creates a more elegant, slimline look that resembles the traditional carved lines of timber, but still has the low maintenance benefits of PVC-U so you get the best of both worlds.
