Choosing KOBBE as your front door supplier means you're opting for unmatched quality and craftsmanship. KOBBE front doors stand as a hallmark of resilience, reflecting our commitment to advanced manufacturing processes and the use of superior materials from renowned sources. Your decision is a testament to prioritizing excellence and innovation in enhancing your home's aesthetic and functionality.

QUALITY

DURABILITY

ELEGANCE

INNOVATION

KOBBE goes beyond being merely a door, it represents an unparalleled blend of performance and energy conservation. This choice guarantees your home is not only visually striking but also excels in retaining warmth and maximizing energy efficiency. With KOBBE, you're choosing a synthesis of elegance, sustainability, and lasting craftsmanship.

Each KOBBE door is a testament to distinctiveness and eco-friendly design. Embracing environmental responsibility, we utilize aluminum profiles comprised of 75% recycled content and ensure the recycling of production remnants. This strategy underscores our commitment to reducing our ecological footprint without compromising the unparalleled quality and individuality of our offering.

SAFETY,
COMFORT,
ENERGY EFFICIENCY,
SUSTAINABILITY

KOBBE aluminum front doors redefine security, meticulously crafted with laminated safety glass and robust fittings to ensure they conform to the RC2 and PAS 24 security rating. This commitment to protection means our doors are designed not just for aesthetic appeal but with a paramount focus on safeguarding your home against unauthorized entry, offering peace of mind and reliability.

K O B B E

MODERN DESIGN & AESTHETIC APPEARANCE

Immerse yourself in the captivating realm of KOBBE, where the innovation of modern aluminum doors is both made for and inspired by discerning customers. Welcome to a world where elegance meets functionality.

KOBBE front doors are crafted with meticulous precision, where attention to every single detail is paramount!

The cutting-edge technologies employed in crafting KOBBE front doors seamlessly integrate with modern smart home systems, ensuring perfect harmony and enhanced functionality.

KOBBE front doors present a contemporary design, complemented by an extensive palette of finishes and a diverse array of features, tailored to meet various aesthetic and functional preferences.

Each configuration bestows our front door with an aesthetic and timeless design.

WHY SHOULD YOU CHOOSE KOBBE?

DURABILITY / HIGH WEATHER RESISTANCE

ENERGY EFFICIENCY / LOW THERMAL TRANSMITTANCE

SAFETY / ADVANCED BURGLAR PROTECTION SYSTEMS

CONTEMPORARY AND TIMELESS DESIGN

Made to Measure

Wide Range of
Finishes

PAS24 and RC2 Security
Rating for Enhanced Protection

Personalized Design

DEFAULT EQUIPMENT

KOBBE PREMIUM

1 frame	High-quality thermally broken aluminium frame, flush on both sides
2 lock	Winkhaus 3-point hook lock in SL75, 5 point in P90
3 hinges	High-quality roller hinges, powder coated, colour matched
4 cylinder	Euro Cylinder, 5 keys
5 escutcheon	Anti-burglary stainless steel escutcheon
6 finish	Durable powder coated fine-structure matt finish
7 glass	Triple glazed in SL75, quadruple glazed in P90, laminated safety-glass

2 Lock
Winkhaus
3-point hook lock

3 Roller hinges

5 Stainless steel
escutcheon

4 Euro Cylinder

CROSS-SECTION KOBBE PREMIUM

1	Durable, weather-resistant powder-coated aluminium sheet
2	Filling: modern XPS board – ensuring excellent thermal insulation, high durability, and resistance to moisture and corrosion.
3	Durable, weather-resistant powder-coated aluminium sheet
4	EPDM seals – providing resistance to changing weather conditions, including extreme temperatures, as well as aging, UV radiation, and moisture.
5	Multi-chamber thermally broken aluminium frame ensuring high thermal performance and minimizing the thermal bridging effect.
6	Thermally broken low threshold, enhancing comfort and safety.
7	Additional closing gasket providing thermal and acoustic insulation
8	Laminated safety glass, triple-glazed with black spacer
9	Laminated safety glass, quadruple-glazed with black spacer

KOBBE PREMIUM 75

KOBBE PRESTIGE 95

U-value	0.79 W/(m ² K)
Leaf/Panel	95mm
Frame	75mm
Glass	quadruple-glazed
Opening direction	inwards
Security	PAS24, RC2

*Leaf flush on the exterior only, 75mm frame

Collection Alu Solid

Alu Solid is a series of aluminium doors with a minimalist, modern design. A simple form without glazing, subtle milling patterns, and stainless steel elements give them a unique charm.

Carefully selected fittings and elegant pull handles ensure durability and user comfort. This collection offers not only a wide range of RAL colours but also the possibility of sublimation, allowing for the effect of natural wood or raw concrete.

An ideal combination of simplicity, functionality, and style that perfectly enhances the character of your home.

Endless design and finish options

Timeless and minimalistic

Customizable milling patterns

Decorative stainless steel applications

Collection Alu Design

The ALU DESIGN line of entrance doors uniquely characterizes both the exterior and interior of your home, reflecting its distinctive individuality. The collection offers the opportunity to introduce an original, contemporary and refined aesthetic.

An impeccable blend of elegance, style, security and longevity – elevated further by the option to include glazing within the panel. Available in a wide range of colour tones and reflective variants, the glass element adds depth, character and a sophisticated visual accent, enhancing the overall architectural expression.

Sleek and modern

Designed to brighten your space

Distinctive milling and stainless steel accents

A diverse array of glass shapes and colours

The ALU DESIGN doors stand out with their versatile millings, glass choices, and stainless steel accents. The customisation possibilities extend even further, offering a wide range of finishes, from any colour within the RAL palette to wood and concrete effect surfaces. Allowing you to creatively tailor your front door to match your personal preferences.

KB 280

Made to stand out

Combine any two colors and design the door that enhances your most extraordinary exteriors.

KB 400

Brighten up your space

This design combines aesthetics and functionality. Large glass surfaces provide excellent interior lighting.

KB 500

Modern and elegant

This contemporary design and refined appearance bestow a unique charm.

KB 1420

Effortless beauty

Sleek, geometric milling in its purest form elevates the aesthetic appeal of your home.

Collection Alu Quartz

The Alu Quartz collection represents the essence of refined design and longevity. The use of ceramic surfaces gives the doors a unique, stone-inspired character while offering exceptional resistance to scratches, moisture and everyday use. It's a solution that fits seamlessly into minimalist contemporary architecture as well as bold, industrial environments.

For those who appreciate striking aesthetics paired with practicality, Alu Quartz is a choice that delivers without compromise.

Unmatched durability and resistance to scratches and moisture

Luxury finish inspired by natural stone

Collection Pivot

Distinguished by precision, balance and a refined sense of proportion, the Pivot door line introduces a new language of entrance architecture. This collection stands at the crossroads of elegance and engineering, offering a harmonious blend of contemporary expression and cutting-edge technology.

The pivot system creates a smooth, almost weightless motion, allowing even large-scale constructions to open with remarkable ease. Every material, surface and detail has been selected to elevate the experience - from robust structural elements hidden within the design, to tactile finishes crafted to perfection. These doors are tailored for spaces where architecture becomes identity, where performance meets aesthetic intention, and where expectations are high and compromise is not an option.

The Pivot range is designed for clients who value individuality and refined simplicity. Those pursuing a timeless entrance that conveys confidence and sophistication from the very first impression.

**Breathtaking grand
entrance**

**Cutting-edge technical
innovation**

**Iconic architectural
statement**

**Boundless creative
potential**

Collection Pivot

The design options for the Pivot collection draw inspiration from the full catalogue of finishes presented earlier, allowing continuity in style across all product lines. From natural stone-inspired ceramics and textured surfaces to advanced colour systems and refined handle solutions - every aesthetic direction can be pursued with confidence.

Impressive maximum format of 4 metres high by 2 metres wide offers breathtaking scale, turning the entrance into a focal point of the building's architecture. Such dimensions often require bespoke engineering, careful planning and tailored solutions, which is why every Pivot door is approached as an individual creation rather than a standard product.

We work closely with clients, architects and designers to tailor each Pivot door to the project. With flexible sizing, finishes and technology, the design possibilities are broad. The result is a distinctive grand entrance — crafted with precision and aligned with the vision of the space.

GLAZING OPTIONS

In modern door design, glass is not just practical – it adds depth, style and unmistakable character to the entrance. We offer a wide selection of glazing options for both door panels and sidelights, allowing you to create a truly unique composition.

Our laminated safety glass, available in various designs and finishes, ensures durability, elegance, and everyday comfort.

* Minor scratches that may appear on the surface of one-way mirrors, as well as potential long-term degradation of the mirrored coating, are inherent characteristics of this type of glass. These imperfections are not subject to warranty claims.

Layout Variants

SIDELIGHTS AND TOPLIGHTS

Sidelights and toplights maximise natural light, brightening the interior while enhancing the contemporary aesthetic of the door. As standard, they are fitted with a triple-glazed unit featuring laminated safety glass, combining elegance with enhanced security.

Available in widths from 300 to 1350 mm (sidelights) and heights from 300 to 1000 mm (toplights), they offer tailored solutions to meet individual requirements.

They can be either fully integrated with the door frame or supplied as a separate element, ensuring a seamless and refined appearance.
